AC/GEN/02/2016

10th March 2016

IN THIS ISSUE

CREATION of CIVIL AVIATION REGULATION 004, Helicopter Landing Area Standards and Certification Regulations

To ensure the Bahrain Civil Aviation Affairs has the most up to date regulatory system and continues to meet its regulatory responsibilities to the highest standard, the above named Regulation has been created in order to reflect ICAO and international standards, in line with the Kingdom's requirements.

The introduction of this CAR will:

1. Enable the certification of Helicopter Landing Areas (HLA);
2. Require all civil helicopters to operate to or from only certified Landing Areas or Aerodromes;
3. Stipulate standards for the operation of Certified HLAs.

The attached Notice of Proposed Amendments (NPA) continues the process of formal public consultation on this proposed introduction.

Your review of the NPA 02/16 and your timely response by 10th May 2016 would be most appreciated.
